PROFESSIONAL SUMMARY

Detail-oriented Software Test Engineer with over 2 years of experience at Accenture specializing in manual and automation testing. Proven track record in executing rigorous regression testing, cross-browser validation, and defect tracking for enterprise applications. Eager to leverage strong analytical skills, test automation expertise (Robot Framework), and knowledge of modern AI technologies to ensure flawless software delivery.

TECHNICAL SKILLS

Testing & QA: Manual Testing, Robot Framework, BrowserStack, API Testing (Postman), JIRA
AI & Cloud: LLM Basics, RAG Concepts, Prompt Engineering, Agentic AI, Multi-agent workflows, MCP (Model Context Protocol)
Development: HTML, CSS, JavaScript (React, Node.js)
Methodologies: SDLC, STLC, Defect Life Cycle, Agile/Scrum, Smoke & Regression Testing

WORK EXPERIENCE

Accenture | Software Test Engineer *Jul 2024 – Present*

- Performed manual, smoke, and regression testing for complex enterprise applications, validating core business processes.
- Developed and executed automated test scripts using **Robot Framework**, reducing manual execution time and improving test coverage.
- Conducted cross-browser and cross-device testing via **BrowserStack** to ensure consistent UI/UX and performance.
- Designed robust test cases and managed end-to-end bug reporting and defect tracking utilizing **JIRA**.
- Validated UI workflows and backend services through API testing using **Postman**.

Exotistic Design Studio | Intern *Jan 2022 – Jun 2022*

- Designed responsive, mobile-friendly website user interfaces focusing on accessibility and UX using HTML, CSS, and modern JavaScript.

KEY PROJECTS

- **AuraGo:** Developed an AI-based travel and utility platform integrating modern UI components, smart automation, and destination planning tools.
- **AbhiNova:** Developed an AI-powered assistant project focusing on smart automation, enhanced productivity, and conversational workflows.
- **AbhiMate:** Built a personal AI companion platform featuring an interactive UI and integrating voice/chat UX paradigms.
- **Portfolio Website:** Developed a responsive, scalable portfolio website showcasing cross-functional technical skills and deployment concepts.

CERTIFICATIONS

- Google Cloud — Build Search & Recommendation Applications with AI
- Accenture — Reinvention with Agentic AI Learning Program
- India AI Impact Buildathon 2026
- Employability Training — Enable India (2022)
